

## Shawneequa Callier, J.D.

The George Washington University  
School of Medicine and Health Sciences

Professor [Shawneequa Callier](#) completed a post-doctoral fellowship at the Center for Genetic Research Ethics and Law, an interdisciplinary center for excellence funded by the National Human Genome Research Institute and located in the Bioethics Department of Case Western Reserve University's School of Medicine. From 2006 to 2009, Ms. Callier practiced health care law in Washington, D.C. Earlier in her career, she also interned at the World Health Organization and the Nuffield Council on Bioethics where she examined international healthcare ethics policies and human genetics laws and guidelines.

Professor Callier received her BA from Princeton University in 2000 and her MS from Monash University, Australia in 2003. She completed her JD from Georgetown University in 2006. Professor Callier is current the Associate Professor of Clinical Research and Leadership in [The Department of Clinical Research & Leadership](#) at The George Washington University School of Medicine and Health Sciences.

Professor Callier has over ten years of experience analyzing the ethical, legal and social issues raised by genetic research. Her current research focuses on topics related to precision medicine research, genomic incidental findings, the use of race in medicine, pharmacogenomics, and the use of personalized genomic testing as an educational tool.
