

Megan Doerr, M.S., L.G.C., Principal Scientist, Governance
Sage Bionetworks

A former botanist and middle school teacher, [Meg Doerr](#) joined the genetic counseling community in 2006. Meg led the clinical development and implementation of Cleveland Clinic's family history and risk assessment tool before joining the Governance team at Sage Bionetworks in 2015. At Sage, Meg's efforts have been concentrated on supporting innovative, participant-centric approaches in open science. Her work has a strong focus on app-based research, including the ELSI issues associated with informed consent, research participation, and data sharing for secondary use in entirely remote, mobile platform based research studies including for the All of Us Research Program.
