

Christi Guerrini, J.D., M.P.H.
Center for Medical Ethics and Health Policy
Baylor College of Medicine

Christi Guerrini, JD, MPH, is an Asst. Professor in the Center for Medical Ethics and Health Policy of Baylor College of Medicine (BCM), where she conducts research at the intersection of innovation, intellectual property, health, and ethics and is the director of the first-year ethics course for medical students. Christi received a four-year K01 award from the National Human Genome Research Institute to study ownership interests in citizen science. She also currently serves as an affiliated researcher at the University of Houston Law Center's Institute for Intellectual Property & Information Law.

Christi received her JD from Harvard Law School and MPH from The University of Texas School of Public Health. She graduated Phi Beta Kappa with Highest Honors from the University of Virginia, where she received her BA in Interdisciplinary Studies (Bioethics).

Prior to joining BCM, Christi served as the Intellectual Property Fellow at Chicago-Kent College of Law and taught patent law and legal writing courses at Brooklyn Law School. Christi also litigated patent, trademark, contract, and class action disputes across a spectrum of industries in private practice in Chicago and Houston. She is admitted to practice in Texas and Illinois and before the U.S. Patent and Trademark Office. Christi's scholarship has been published in Science, Nature Biotechnology, Genetics in Medicine, and Journal of Law and the Biosciences, as well as in several law reviews.
