

2017 SUMMER MUSIC GRANTS

Students who registered as an undergraduate or graduate Music major in Fall 2016 or Spring 2017 may apply for financial assistance to participate in a music activity that will enhance your education in music during the summer months. Many types of projects will be considered. This project is partially funded by revenues generated by the music student fee program. A music student review panel will make recommendations about funding of proposals.

NOTE: MAT students are eligible. Music Therapy equivalency students are not eligible because they are not registered as Music majors and do not pay the music student fee.
