Teaching with Technology

[Breeze](#) | [Accessibility for Faculty](#) | [Basics](#) | [Beyond Basics I](#) | [Beyond Basics II](#)
| [Whats New?](#) | [Design Online Learning](#) | [PowerPoint](#) | [Accessibility 101](#) |
[Standards & Guidelines](#) | [UofL Templates](#) | [Content System](#)

Our workshops for faculty teaching courses using the Blackboard Course Management System offer basic to advanced levels of instruction. See the course descriptions below.

Content System: Sharing Content **NEW!**

Content System: E-Portfolio **NEW!**

Using Macromedia Breeze **NEW!**

Breeze is a software program that offers a new way to put your PowerPoint presentations online in a more universal, web-friendly format. It makes it easy to add audio, video and to embed quizzes. The class will include an overview of Breeze and a step-by-step walk-through on how to use it.

Web Accessibility 101 for Faculty **NEW!**

Many studies find that nearly 20 percent of the populations have some kind of disability, including many types that make accessing the Internet more difficult. Higher education institutions have a responsibility to accommodate the varying abilities of their users. With the increasing use of online and distance education, web accessibility is becoming a high priority. This is particularly true in Kentucky as it is state law to have any public websites accessible. The Delphi Center is now offering four workshops for faculty who want to learn how to design website and online courses that are accessible: Web Accessibility 101; How to Create Accessible Documents in Word; How to Create Accessible Documents in PowerPoint; and How to Create Accessible PDF's.

How to Create Accessible Documents in Word **NEW!**

Microsoft Word is the most widely used word processing program. This course will teach you how to make sure your Word documents are accessible. (1 hour)

How to Create Accessible Documents in PowerPoint **NEW!**

Learn how to create accessible PowerPoint presentations in this 1-hour session.

How to Create Accessible PDF's **NEW!**

PDF's (Portable Document Files) are an industry standard on the world-wide web. Learn to create accessible pdf's in this class. (1 hour)

What's New in Blackboard: Application Pack 3 **NEW!**

Blackboard's newest application pack releases several new features. In this course you will be introduced to these features. (2 hours)

Blackboard Basics

Blackboard Basics provides the foundational skills to use UofL's course
