## SECTION TWO: Enrollment Information (for FTE and Headcount)

### A. Instructions for calculating FTE

Please report your institution's enrollment for the 2013 fall term in the right-hand column. When tabulating the total, include all degree and non-degree students, wherever instruction occurs. This applies to students enrolled in course work delivered at the main campus, off-campus sites, branch campuses, and course work delivered electronically. For the purpose of Commission use, please use the following definitions for your computation of FTE and not your institution's definition.

A full-time undergraduate student is one enrolled for 12 or more credit hours.

A full-time post-baccalaureate/graduate student is one enrolled for 9 or more credit hours.

### For-Credit, Full-Time Undergraduate and Post-Baccalaureate Students

1. Total <u>number</u> of full-time undergraduate students (those taking 12 or more credit hours):	12,484 _____
2. Total <u>number</u> of full-time post-baccalaureate (master's or doctoral programs, or other for-credit programs) students (those taking 9 or more credit hours):	3,956 _____

### For-Credit, Part-Time Undergraduate and Post-Baccalaureate Students

3.a. Total <u>hours</u> of all undergraduate students carrying fewer than 12 credit hours (definition of part-time student): 21,386 _____(hours)	
b. Divide the total hours in 3a by 12, rounding to the nearest whole number:	1,782 _____
4.a. Total <u>hours</u> of all post-baccalaureate students (master's or doctoral programs, or other for-credit programs) carrying fewer than 9 credit hours (definition of part-time student): 7,414 _____(hours)	
b. Divide total hours in 4a by 9, rounding to the nearest whole number:	824 _____
5. Total of lines 1, 2, 3b, and 4b:	19,046 _____

**Non-Credit (Include continuing education. Do not include non-credit courses taken by for-credit students as part of a for-credit program such as labs, chapels, student success courses, remedial courses, etc. Count these under for-credit.)**

6.a. For <b><u>each</u></b> non-credit course offered in the 2013 fall term, multiply the total number of contact hours for the course (as determined by your institution) by the total number of students enrolled in the course. Add resulting figures for all non-credit courses (See example below).	772,917.50
b. Divide combined total in 6a by 168 if your institution is on a semester or trimester system (12 hours/week x 14 weeks), or by 120 if your institution is on a quarter system (12 hours/week x 10 weeks). Round to the nearest whole number	4,601

**Total For-Credit and Non-credit FTE**

7. Total of lines 5 and 6b:	23,647
-----------------------------	--------

**Example for calculating 6a above:**

An institution has five non-credit courses. Course one has 17 students and 20 course contact hours; course two has 11 students and 15 contact hours; course three has 10 students and 15 contact hours; course four has 16 students and 5 contact hours; and course five has 14 students and 10 contact hours.

Calculation for Part 6a.	Students	Contact Hours			
Course one:	17	x	20	=	340
Course two:	11	x	15	=	165
Course three:	10	x	15	=	150
Course four:	16	x	5	=	80
Course five:	14	x	10	=	140
Calculation Total for Part 6a. =					875

**B. Instructions for calculating Enrollment Headcount**

Using your institution's definition, report your enrollment headcount for the **2013 fall term**. When tabulating the total, **include all degree and non-degree students, wherever instruction occurs**.
