

External Peer SACS Reaffirmation Submissions

The institutions listed have completed the SACSCOC Reaffirmation Report process in the last two to three years. Please remember there is no one right way to address the standards and the information viewed should be considered “Food –for -Thought” only. Many schools have components of their report that are secured and not open to the public.

It is important when reviewing these websites to look for the Compliance Certification Report or Quality Enhancement Plan (QEP) proposal; to also review the Focused Report to see the SACSCOC response to any areas flagged as not in compliance. QEP feedback on the proposal will be separate from any compliance responses.
