

# 2020-21 Graduating Student Survey (GSS) – Undergraduates

## Executive Summary

### Background

The Graduating Student Survey (GSS) is administered each summer, fall, and spring semester to all students who have submitted a degree application for graduation. The goal of this survey is to gather exit information from graduating students about their experiences at the university. Respondents are asked about their perception of—and satisfaction with—their time at UofL, including academic preparation, experience in their unit and their major/program, advising, faculty, and their plans following graduation.

### Methodology

A PeopleSoft query was used to provide a listing of all undergraduate students who submitted a degree application in Summer 2020, Fall 2020, and Spring 2021 for a total of 2,793 students. A total of 536 (19.19%) students responded to the survey; due to the low number of responses, caution should be used when attempting to generalize to the entire population of undergraduate students.<sup>1</sup>

### Profile

Of the 536 respondents who completed the survey, 65% are female, 72% are full-time students, 75% are White, 9% are African American, 5% are Hispanic/Latino, 6% are Asian, 3% are two or more races, and 2% are other races. Additionally, 27% are first generation college students.
