

Week-by-Week Vocabulary Overview Chart
Earth and Space

Unit progression	Targeted Vocabulary
Week 13	<i>New vocab:</i> star, planet, orbit, galaxy, universe, gravity <i>Review:</i> form (formation), rate, volume, temperature
Week 14	<i>New vocab:</i> debris, attract, axis, tilt, revolve/revolution, rotate/rotation <i>Review:</i> planet, star, galaxy, universe
Week 15	<i>New vocab:</i> matter, mass, weight, inertia, unbalanced force, law of universal gravitation <i>Review:</i> gravity, debris, attract, axis
Week 16	<i>New vocab:</i> season, hemisphere, atmosphere, angle, curvature, absorb, reflect <i>Review:</i> axis, tilt, rotate/rotation
Week 17	<i>New vocab:</i> solar energy, fluctuate, fixed, North Star, equator, latitude <i>Review:</i> revolve, hemisphere, atmosphere, curvature
Week 18	<i>New vocab:</i> solar (lunar) eclipse, wane, wax, crescent, phase, tide, centrifugal <i>Review:</i> mass, inertia, law of Universal Gravitation
Week 19	<i>New vocab:</i> draft planet, giant planet, habitable zone, evolve, Kuiper Belt, astronomical unit, speed of light <i>Review:</i> evolve, tide, phase, fluctuate
