

Week-by-Week Vocabulary Overview Chart
MS Rock Cycle

Unit progression	Targeted Vocabulary
Week6	<i>New vocab:</i> Mineral, Form, Melt, Igneous, Fossil, Press, Sedimentary, Layer Metamorphic, Stratum/strata
Week7	<i>New vocab:</i> Trace evidence, Erosion, Weathering, Fossil fuels, Ores, Composition, Texture <i>Review:</i> Igneous, Sedimentary, Metamorphic
Week8	<i>New vocab:</i> Core, Crust, Mantle, Magma, Lava, Timeline, Geological time scale (Period, Eon, Era), Zoic (Paleozoic, Mesozoic, Cenozoic) <i>Review:</i> Mineral, Stratum/strata
Week9	<i>New vocab:</i> Limestone, Sandstone, Particle, Deposit, Transport, Delta Glacier <i>Review:</i> Form (formation), Press (pressure, Melt (melted)
Week10	<i>New vocab:</i> Inner core, Outer core, Convection Currents, Plate tectonics, Lithosphere, Extinction <i>Review:</i> Erosion, Weathering, Deposit, Transport
Week11_12	<i>New vocab:</i> Chemical/physical weathering, Ancient, Index fossil, Evolve, Undisturbed, Intrusive/extrusive rock, Crystal <i>Review:</i> Inner core, Outer core, Lithosphere
