SMALL BUSINESS CONCERNS (START UP ENTITIES)

Covered Persons are responsible for separating their University Responsibilities for Research and education from their personal or private Financial Interests. Covered Persons must separate and clearly distinguish current University Research from work at the start-up companies or small business concerns (SBC).

Covered Persons should serve in advisory or advice-giving roles at the SBC as opposed to roles with management responsibility. Full-time Covered Persons wishing to engage in a management role, should consider the use of entrepreneurial leave to

address Conflict of Commitment concerns. With respect to this requirement, full-time refers to 1.0 Full-Time Equivalent (FTE).

If the Covered Person elects to serve in any SBC roles, the Covered Person may not engage in any University projects related to the SBC without prior CRB approval. Covered Persons must avoid circumstances in which junior personnel might feel expected to Support the SBC.

Personal interests of Covered Persons or commercial Interests of Research sponsors may not impact the training experience and academic progress of University students, fellows, and trainees. Current students, trainees, or fellows asking to take a leave of absence to join the SBC should consult the CRB.

SPECIAL CONSIDERATIONS FOR THE UNIVERSITY

Institutional Financial Interests can be created by gifts, payments, royalty income, equity, and other financial benefits from or interests in for-profit entities.

Institutional Financial Interests can also be created by financial and fiduciary interests of University Officials. The presence of an Institutional Financial Interest alone does not constitute an Institutional Conflict of Interest.

The University shall not engage in actions that create an unmanaged Institutional Conflicts of Interest (ICOI).

Philanthropy is important to the University mission. No charitable donation should be dependent on the result of University Research.

The University must not seek or accept gifts that impacts the ability of its researchers to conduct and report results with the highest scientific, medical, professional, and ethical standards.

This policy does not forbid the University from accepting philanthropy from companies that sponsor Research or conduct business with the University. This policy helps the University develop means of identifying and examining such circumstances and managing Actual or Apparent Conflicts of Interest that may result.

The Office of University Advancement, and external investment managers, cannot discuss nonpublic University Research with members of the University community to influence investment decisions. Maintaining this robust "firewall" is essential for ensuring the core activities of the University are not affected, or perceived to be affected, by the University's interests in maximizing the value of its endowment pool.

Individuals must report Actual or Apparent Conflicts of Interest involving philanthropic practices to the CRB or to the COIC Office.

CONFLICT OF COMMITMENT

Covered Persons must comply with institutional requirements regarding work outside the University ([Redbook 4.3.3 for Faculty](#), [Redbook 5.6 for Staff](#), [PER1.12 for Administrators](#)).

Covered Persons may use their expertise to advance and share knowledge through collaboration with the public, the community, and external Entities. These actions strengthen performance of University teaching, advance University Research and public service missions, and bring credit to the University.

At the same time, the University has a responsibility to ensure that Covered Persons' external dealings do not inappropriately influence their University actions and decisions.

Covered Persons may engage in Non-University Commitments of a professional, personal, or economic nature that do not conflict or interfere with University interests or with the Covered Person's commitment to the University.

Covered Persons must meet the duties and professional activities that fulfill obligations to their units, departments, and programs.

Covered Persons may not hold a position at any other postsecondary educational institution, independent Research institutes or nonprofit entities while they are Full-

time University Employees unless approved under this policy, including online teaching, participation in Foreign Government-sponsored talent recruitment programs, etc. Faculty on non-twelve (12) month appointments must apply these requirements for the term in which they are under contract with the University (nine (9), ten (10), and (11) months respectively).

Covered Persons may not participate in a Malign Foreign Talent Recruitment Program while they are a University Employee. Consulting and joint Research relations are subject to review and prior institutional approval.

When a dual appointment is approved, the Covered Person will list the University as the primary appointment on all Research and scholarly publications, presentations, and contact information.

Funding or Support related to the dual appointment must be reported to the University on the ADF, to OSPA and in funding submissions as needed. This includes all funding or Support from all added sources related to the dual appointment.

Covered Persons cannot use University resources to aid work at the dual appointment. This includes but is not limited to use of University funds (including all types of sponsored program funds (e.g., NIH grant funds), Research infrastructure funds, endowments accounts, gifts, etc.), non-public or confidential Research information or intellectual property, facilities, equipment or personnel, services (e.g., IRB Review) and library subscriptions.

Covered Persons must coordinate travel and coverage of University duties with the Appropriate Authority when dual appointments compel absence from campus.

Covered Persons private interests cannot create a recurring conflict with their University Responsibilities.

Covered Persons may not enter a contractual arrangement, including employment, with an Entity that interferes with their University Responsibilities.

Covered Persons may not engage in use of University time or resources for professional, charitable, or community activities without appropriate University approvals.

Covered Persons or Relatives must not use the Covered Person's position, University assets or resources for Personal or Private Gain.

Covered Persons must not influence or try to influence the actions of colleagues and subordinates with the intent of improving the Covered Person's or Relatives' Interests (financial or nonfinancial).

DISCLOSURE AND MANAGEMENT

Timely and accurate submission of the University's Attestation and Disclosure Form (ADF) is a condition of employment at the University.

Covered Persons must disclose to the Appropriate Authority or administrative officer intent to engage in external activity or employment before such engagement and **before** a contract or transaction takes place.

Covered Persons must disclose external Interests by the ADF to the COIC Office at least each year or within thirty (30) days of the discovery or gain of a new external interest, for example, through purchase, marriage, or inheritance. Covered Persons will report external interests **before** an application for sponsored funding as needed by this policy and the sponsoring agency.

The University will manage or eliminate Identified conflicts. The Covered Person shall agree in writing to the approved Management Plan.

The approved Management Plan will be in place before any action subject to influence by the external interest. This includes any related contract, grant, sponsored project (for example, Research, instruction or outreach), dedicated Gift, or other transaction is carried out, or any relationship is started. The Board of Trustees reserve authority to review and approve plans for managing, reducing, or eliminating Actual or Apparent Conflicts of Interest and Commitment involving the University president.

COIC TRAINING

All Covered Persons will complete Conflict of Interest and Commitment (COIC) and Foreign Influence training identified by the University at least every four years or immediately following one of the three circumstances noted in the procedures.

COMPLIANCE

All Covered Persons are responsible for knowing, understanding, and complying with this policy.

Covered Persons are responsible for affirming that they have received and read this policy and will adhere to its conditions.

Violations of this policy include but are not limited to willful failure to disclose a Conflict of Interest or Commitment or willful failure or refusal to cooperate with an approved COIC Management Plan. Violations of this policy are deemed a serious violation of policies governing employment and may subject the employee to disciplinary action. Disciplinary action must consider the severity and frequency of the violation, its impact on the institution, and the extent to which the conduct in question deviates from standards of conduct, policies and procedures, or expectations. The University reserves the right to take appropriate actions that are commensurate with the nature of the violation and are consistent with the Redbook and other University policies and applicable laws. Possible actions or sanctions could include a letter of reprimand, increased monitoring of the identified Conflict of Interest or Commitment, Management Plan modifications, or other appropriate

actions. Individuals should report concerns of noncompliance with this policy to the COIC Office. University will inform the Research sponsor of the violation and any corrective action, if required or required. For Public Health Service (PHS) or Department of Energy Supported projects, University will undertake the Retrospective Review and create any Mitigation Reports, as needed.

The COIC Office reports to the Vice President for Risk, Audit and Compliance, who serves as the COIC Officer. The COIC Officer authorizes the COIC Office and CRB to review and address reports of noncompliance with this policy, a Management Plan, or applicable federal, state, or local controls. The COIC Officer will address any concerns not resolved by the COIC Office or CRB.
