Reason for Policy:

The Emergency Preparedness and Contingency Plan (Plan) defines the course of action to be followed in the case of a fire, explosion, or release of hazardous materials, waste, or waste constituents which could threaten human health or the environment.

Statement:

In the event that an emergency condition occurs that has potential to threaten human health or the environment, the Plan will be initiated and maintained until the emergency condition has been stabilized.

Responsibilities:

The decision to implement the Plan will be made by the Emergency Manager and depends upon whether or not the emergency situation presents a threat to human health or the environment.
