

WHAT IS THE *KY GOP?*

OUR HISTORY

Republican roots run deep in Kentucky. In 1860, Kentucky-Native Abraham Lincoln became the first Republican elected President. This kicked off a centuries-long period of strategic infrastructure-building and diligent campaigning, leading to Republicans winning and holding 7/8 US Congressional Seats (2012), the securing of Republican majorities for both state legislative chambers (2016), 5/6 statewide offices held by Republicans (2019), and Kentucky proudly touting more registered Republicans than Democrats (2022).

WHAT WE DO

Made up of elected members at the precinct, county, district, and state level, the KY GOP secures landslide victories for Republican candidates in local, state, and federal offices. By helping to coordinate the grassroots, mailing, digital, and other portions of campaigns, we have secured our position as one of the most organized state GOPs in the country.
