V. Action Item: Approval of Capital Construction Projects

Mr. Miller explained any capital projects exceeding \$100K require approval by the ULAA Board of Directors and any capital project exceeding \$600,000 must be approved by the CPE.

The Astro Turf has an expected life of 7-10 years. At Trager Stadium, the Astro Turf has been in place since Cardinal Park was opened approximately 12 years ago. The Coaches studied various turfs and selected Astro Turf as the premier turf for Field Hockey.

The Hydrotherapy pool will be installed in an addition made to the Trager Training Center. This area will be approximately 1,325 sq. ft. and will also include two training table areas. This project will benefit all student athletes who are injured and will be critical for their rehabilitation. Estimated cost of construction and purchase of pool is approximately \$600,000. A reserve of \$150,000 has been set aside for possible additional expense relating to environmental charges that will be absorbed in construction.

The Permanent Video Towers for Football will replace the use of temporary lifts that have been used for managers to film practice sessions for football. There will be three towers that are 36' in height and one tower that is 52' in height. They will be permanent fixtures attached to a concrete slab.

Mr. Bridgeman made a motion, which Prof. Kemelgor seconded, to approve the

Athletic Director' recommendation that the Board of Directors approve the following Capital Purchases:

Project	Estimated Value	Funding Source
(1) Trager Stadium Astro Turf	\$850,000	Operations
(2) Hydrotherapy Training Room Addition to Trager Training Center	\$1,000,000	Operations
(3) Permanent Video Towers For Football	\$235,000	Operations

The motion passed. Committee members raised questions regarding the safety and structure of the permanent towers.
