\* new GRE scoring

NOTE: Starting in the 2020-2021 application cycle, GRE scores became an optional part of our program application and are not viewed as part of admissions decisions for all applicants. Thus, starting in 2020-2021, we will no longer report GRE data here.

The above table provides important information on our admissions, consistent with recommendations from the Council of University Directors of Clinical Psychology (<http://cudcp.org/>).
