

PARTICIPANTS NEEDED FOR A FREE SPEECH- LANGUAGE THERAPY RESEARCH STUDY

- Researchers in the Departments of Psychological & Brain Sciences and Otolaryngology and Communicative Disorders are inviting you to be in a study examining how children interact with speech-language pathologists (SLP) during online and in-person speech-language therapy sessions.
- Families will complete 4 hours of speech-language therapy and 2 hours of speech-language assessment in the clinic.
- You will be paid **\$244** for being in the study including travel reimbursement and parking fees.
- You may be eligible if:
 - Your child is between 8-12 years old,
 - Your child has hearing loss and is using hearing aids and/or cochlear implants, and/or
 - Your child has normal hearing.
