

Learning & Performance Lab

<http://louisville.edu/psychology/decaro/lab>

We value the diverse experiences and backgrounds of all students at University of Louisville and are committed to making an inclusive lab experience for all members. We encourage historically underrepresented or marginalized undergraduates to apply.

Professor: Dr. Marci DeCaro

Type of position: Volunteer or PSYC 491 (3 credits)

Time commitment: 9 hours/week, flexible schedule based on RA and lab availability Mon-Fri between 9am-6pm, 2 semesters minimum commitment

Semesters position is available: Spring and fall every year, possibility of summer

Location of work: 122 Life Sciences

Requirements: Minimum 3.0 GPA

Brief description of project: Our research applies cognitive psychology to study undergraduate learning. For example, we study how active learning methods, such as exploratory learning, impact students' ability to more deeply understanding the concepts they are taught. We are currently studying both classroom and online learning.

Specific tasks: Primary duties include running experiments (following a research script), entering data into Excel or SPSS, coding problem-solving strategies, attending lab meetings.

How to apply: Complete the application at the bottom of this page (<http://louisville.edu/psychology/decaro/lab/people>) and email to Dr. DeCaro (or contact Dr. DeCaro for an application)

Contact: Dr. Marci DeCaro (marci.decaro@louisville.edu)
