The Contractor shall, after receipt of such notice, immediately correct conditions. Notice delivered to the Contractor or the Contractor's representative at the site of the Work shall be deemed sufficient for this purpose. If the Contractor fails or refuses to comply promptly, the Owner may issue an order stopping all or part of the Work until satisfactory or corrective action has been taken. Failure or refusal to comply with the order will be grounds for reducing or stopping all payments due under the Contract to the General Contractor. No part of the construction time lost due to any such stop order shall be cause for, or the subject of a claim for, extension of time or for additional costs or damages by the Contractor.

The Contractor or any Sub-contractor shall immediately contact the University of Louisville through the Owner's Project Manager should they be selected for an inspection by the Kentucky Occupational Safety and Health Compliance Division.

 - f. This clause does not apply to the listing of employment openings which occur and are filled outside of the 50 states, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.
 - g. This clause does not apply to openings which the Supplier proposed to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.
 - h. As used in this clause:
 - 1. "All suitable employment openings" includes, but is not limited to, openings which occur in the following job categories: production and nonproduction; plant and office; laborers and mechanics; supervisory and nonsupervisory; technical, and executive administrative, and professional openings which are compensated on a salary basis of less than \$18,000 per year. Under the most compelling circumstances an employment opening may not be suitable for listing, including the situations where the needs of the Government cannot reasonably be otherwise supplied, where listing would be contrary to national security, or where the requirement of listing would otherwise not be for the best interest of the Government
 - 2. "Appropriate office of the state employment service system" means the local office of the federal-state national system or public employment offices with assigned responsibility for serving the area where the employment opening is to be filled, including the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.
 - 3. "Openings which the Supplier proposes to fill from within his own organization" means employment openings for which no consideration will be given to persons outside the Supplier's organization (including any affiliates, subsidiaries, and the parent companies) and includes any openings which the Supplier proposes to fill from regularly established "recall" or "rehire" lists.
 - 4. "Openings which the Supplier proposes to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings for which no consideration will be given to persons outside of a special hiring arrangement, including openings which the Supplier proposes to fill from union halls, which is part of the customary and traditional hiring relationship which exists between the Supplier and representatives of his employees.
 - 5. "Disabled veteran" means a person entitled to disability compensation under the law administered by the Veterans' Administration for disability rates at 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in line of duty.
 - 6. "Veterans of the Vietnam era" means a person (1) who (i) served on active duty for a period of more than 180 days, any part of which occurred after August 05, 1964, and was discharged or released therefrom with other than a dishonorable discharge, or (ii) was discharged or released from active duty for service-connected disability if any part of such duty was performed after August 05, 1964, and (2) who was so

discharged or released within the 48 months preceding his application for employment covered under this part.

The contractor must ensure that applicants and employees with disabilities are informed of the contents of the notice (e.g., the contractor may have the notice read to a visually disabled individual, or may lower the posted notice so that it might be read by a person in a wheelchair).

e. that it will notify each labor organization or representative of workers with which it has a collective bargaining agreement or other contract understanding, that the contractor is bound by the terms of section 503 of the Rehabilitation Act of 1973, as amended, and is committed to take affirmative action to employ and advance in employment individuals with physical or mental disabilities.

f. that it will include the provisions of this clause in every subcontract or purchase order in excess of \$10,000, unless exempted by the rules, regulations, or orders of the Secretary issued pursuant to section 503 of the act, as amended, so that such provisions will be binding upon each subcontractor or vendor. KRS 45A.070(6) defines "Responsible bidder or offeror "as" a person who has the capability in all respects to perform fully the contract requirements and the integrity and reliability which will assure good faith performance," and "Best value" as "a Procurement in which the decision is based on the primary objective of meeting the specific business requirements and best interests of the Commonwealth." The information requested in this document is to be used to evaluate the "responsibility" by verifying the apparent low bidder:

- (a) Has adequate financial resources (in working capital and bonding capacity) in relation to the scope and dollar amount of the project or the ability to secure such resources;
- (b) Has the experience, organization, technical qualification, available personnel resources, and has or can acquire the equipment necessary to perform the scope of work bid;

The low responsive Bidder must complete the information requested by typing or clearly printing responses in ink. All information requested must be provided. GENERAL CONDITIONS

UNIVERSITY OF LOUISVILLE

PROCUREMENT SERVICES DEPARTMENT

LOUISVILLE, KENTUCKY 40292

ARTICLE 1 - GENERAL CONDITIONS

These general conditions apply to each section of the specifications and are binding upon the Contractor and all subcontractors as each are subject to the provisions contained herein.

These general conditions are intended to define and establish certain rules and provisions of the contract governing the operation so that the work may be continued and be completed in an orderly, expeditious and workman like manner.

These general conditions, together with the specification and contract documents, shall further establish the standards of material and workmanship for the "work".

ARTICLE 2 - DEFINITIONS

Wherever used in these general conditions or in other contract documents, the following terms have the meaning indicated which are applicable to both the singular and plural thereof:

The term **OWNER** as used throughout the specifications and contract documents means the University of Louisville, represented by **Glen Todd**.

ARCHITECT means the person, company or corporation, Owner, architect, or other consultant, named in the contract documents.

CONTRACTOR means the person, company or corporation with whom the Owner has executed a contract

SUBCONTRACTOR means the person, company or corporation having a direct contract with the Trade Contractor for the performance of a part of the work.

CONTRACT means the bid offer of the Contractor as officially accepted by the Owner, evidenced by the "Letter of Intended Acceptance", executed Owner/Contractor agreement of contract, and the executed Finance encumbrance document, entitled "Purchase Contract".

CONTRACT DOCUMENTS means the agreement between the Owner and Contractor, the Payment and Performance Bond, the general, supplemental and special conditions, the drawings, the specifications, the scope of work, all addenda and modifications and change orders issued after execution of the contract. The contract documents complement each other; whatever is required by one shall be as binding as if required by all.

WORK means and comprises the completed construction required by the contract documents. It includes labor, material, equipment, supplies, superintendency, plant, and equipment to perform and complete the contract in an expeditious, orderly and workmanlike manner.

CONTRACT AMOUNT means the sum stated in the contract including any authorized adjustments thereto; it is the total amount payable by the Owner to the Contractor for the performance of the work under the contract documents.

WORK ORDER means a written notice by the Owner to the Contractor, authorizing the Contractor to commence work under the contract and establishing the beginning date.

CONTRACT COMPLETION TIME means the number of calendar days to complete the work as specified in the contract documents.

CALENDAR DAY means a day of twenty-four hours measured from midnight to the next midnight.

CHANGE ORDER means a written order to the Contractor signed by the Owner, issued after the execution of the contract, authorizing a change in the work or an adjustment in the contract sum or the contract time.

SHOP DRAWINGS means drawing, diagrams, schedules, and other data specially prepared for the work by the Contractor or any subcontractor manufacturer, supplier, or distributor to illustrate some portion of the work.

WRITTEN ORDER means a field order issued by the architect which clarified or interprets the contract documents, or orders minor changes in the work which does not require a change order.

ARTICLE 3 - THE ARCHITECT/ENGINEER

CMTA Engineers will be the Owner's representative during construction and until the work is complete.

The architect will visit the site at intervals appropriate to the stage of construction to familiarize himself generally with the progress and quality of the work, and to determine in general if the work is proceeding in accordance with the contract documents. On the basis of his on-site inspection observations, he will keep the Owner informed of the progress of the work, and will endeavor to guard the Owner against defects and deficiencies in the work of the Contractor.

The architect will not be responsible for, and will not have control or charge of construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the work.

The architect will be the sole interpreter of the requirements of the contract documents and the judge of the performance thereunder by the Contractor.

Claims, disputes, and other matters in questions that arise relating to the execution or progress of the work shall be referred initially to the Architect/Engineer for decision, which he will render in writing within a reasonable time.

The architect will have authority to reject work which does not conform to the contract documents.

The architect will review and approve, or take other appropriate action upon Contractor's submittal, such as shop drawings, product data, and samples, but only for conformance with the design concept of the work, and with the information given in the contract documents. Such action shall be taken with reasonable promptness so as to cause no delay. The architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

The architect will prepare change orders, and authorize minor changes in the work, not involving extra cost and time extension, provided the changes are not inconsistent with the purpose of the work.

The architect will conduct inspections to determine the dates of substantial completion and final completion; will receive and forward to the Owner for the Owner's review, written warranties and related documents required by the contract and assembled by the Contractor.

ARTICLE 4 - WORK REASONABLY INFERRED AND DISCREPANCIES

The Contractor shall make a thorough examination of the site(s) and study all drawings and specifications and all conditions relating to the erection of the work. Materials or labor evidently necessary for the proper and complete execution of the work, which are not specifically mentioned although reasonably inferred there from, shall be included in the work.

The intent of the contract documents is to include all items necessary for the proper execution and completion of the work. Anything called for in the specifications and not shown on the drawings or shown on the drawings and not called for in the specifications, shall be included in the Contractor's work, the same as if included in both. In the event of a doubt arising as to the true intent and meaning of the drawings and specifications, the Contractor shall report it at once to the architect. The architect shall furnish, with reasonable promptness, additional instructions, by means of drawings or otherwise, necessary for the proper execution of the work. All such drawings and instructions shall be consistent with the contract documents, true developments thereof and reasonably inferable therefrom. The work shall be executed in conformity therewith and the Contractor shall do no work without proper drawings and instructions. The architect shall be responsible for interpretation of the documents. The architect's decision regarding compliance with plans and specifications in the case of conflicts shall be final and binding.

ARTICLE 5 - SHOP DRAWING SCHEDULE

The Contractor shall submit a schedule to the architect prior to the submittal of the firm's first application for payment, fixing the dates for the submission of shop drawings.

ARTICLE 6 - SHOP DRAWING SUBMITTALS

The Contractor shall review, approve, and submit shop drawings in accordance with the approved schedule as herein detailed. By approving and submitting shop drawings, the Contractor represents that he has determined and verified all materials, field measurements, and field construction criteria related thereto, or will do so, and that he has checked and coordinated the information contained within such submittals with the requirements of the work and of the contract documents.

The Contractor shall submit adequate shop drawings required for the work and the architect will review and approve, with reasonable promptness, shop drawing and samples, or return for corrections as required. The review and approval shall be only for conformance with the design concept of the project and for compliance with the information given in the contract documents. The approval of a separate item will not indicate approval of the assembly in which the item functions.

The Contractor shall make any corrections required by the architect for compliance to the contract and shall return the required number of corrected copies of shop drawings and resubmit new samples until approved. The Contractor shall direct specific attention, in writing, or on resubmitted shop drawings, to revisions other than the corrections called for by the architect on previous submissions. The Contractor's stamp of approval on any shop drawing or sample shall constitute a representation to Owner and architect that the Contractor has either determined and verified all quantities, dimensions, field construction criteria, materials, catalog number, and similar data, or he assumes full responsibility for doing so, and that he has reviewed or coordinated each shop drawing or sample with the requirements of the work and the contract documents.

Where a shop drawing or sample submission is required by the specifications, no related work shall be commenced until the submission has been approved by the architect. A copy of each approved shop drawing and each approved sample shall be kept in good order by the Contractor at the site and shall be available to the architect.

The architect's approval of shop drawings or samples shall not relieve the Contractor from his responsibility for any deviations from the requirements of the contract documents unless the Contractor has in writing called the architect's attention to such deviation at the time of submission and the architect has given written approval to the specific

deviation, nor shall any approval by the architect relieve the Contractor from responsibility for errors or omissions in the shop drawings.

ARTICLE 7 – PLANS, DRAWINGS & SPECIFICATIONS

Unless otherwise provided in the contract documents, the Contractor will be furnished, free of charge, 6 complete sets of drawings and specifications reasonably necessary for the execution of the work. Additional copies/sets can be purchased at cost by the Contractor. The Contractor shall keep one copy of all drawings and specifications on the site, in good order, available to the architect and/or his representatives.

All drawings, specifications, and copies thereof, furnished by the architect, are the property of the University of Louisville. They are not to be used on other work.

ARTICLE 8 - MATERIALS, APPLIANCES, AND EMPLOYEES

Unless otherwise stipulated, the Contractor shall provide and pay for all materials, labor, water, tools, equipment, light, power, temporary heat, hoist, supplies, appliances, transportation, and other facilities necessary for the execution and completion of the work. In the event the Owner elects to make available the electric power, at no cost to the contractor for construction purposes, it shall not be utilized as a means for temporary heat.

Unless otherwise specified, all materials shall be new, and both workmanship and materials shall be of good quality. The Contractor shall, if required, furnish satisfactory evidence as to the kind and quality of materials.

The Contractor shall at all times enforce strict discipline and good order among his employees and subcontractors and shall not employ on the work any person not skilled in the work assigned to him.

ARTICLE 9 - ROYALTIES AND PATENTS

The Contractor shall pay all royalties and license fees and shall defend all suits or claims for infringement of any patent rights and shall save the Owner harmless from loss on account thereof. However, the foregoing shall apply to the Owner in lieu of the Contractor in the event that a particular process or the product of a particular manufacturer is specified.

ARTICLE 10 - SURVEYS, PERMITS AND REGULATIONS

The Owner will furnish only such surveys as included in the contract. Approvals, assessments, and easements for permanent structures or permanent changes in existing facilities and utility tap-on fee shall be secured and paid for by the Owner, unless otherwise specified. Building, sewer, water, and similar types of permits, where required by local ordinances, shall be obtained by the Contractor. A Contractor's license fee for doing business in the locale, if applicable, shall be paid for by the Contractor.

The Contractor shall give all notices and comply with all laws, codes, rules and regulations bearing on the conduct of the work as drawn and specified.

ARTICLE 11 - PROTECTION OF WORK, PROPERTY, EMPLOYEES AND PUBLIC

The Contractor shall continuously maintain adequate protection of all his completed work and materials delivered from damage and shall protect the Owner's property from injury or loss arising in connection with this contract, until final acceptance of the work. He shall make good any such damage, injury, or loss, except such as may be directly due to errors in the contract documents or caused by agents or employees of the Owner. He shall adequately protect adjacent property as provided by law and the contract documents.

The Contractor shall take all necessary precautions for the safety of employees on the work, and shall comply with all applicable provisions of federal, state, and municipal safety laws and building codes to prevent accidents or injury to persons on, about, or adjacent to the premises where the work is being performed.

The Contractor shall designate a responsible member of his organization, on the work, as safety officer whose duty shall be to enforce safety regulations. The name and position of the person so designated shall be reported to the Architect by the Contractor.

In an emergency affecting the safety of life, or of the work, or of adjoining property, the Contractor, without special instruction or authorization from the architect or Owner, is hereby permitted to act, at his discretion, to prevent such threatened loss or injury. The Contractor shall immediately inform the University Department of Public Safety (852-6111).

CONSTRUCTION AND SAFETY DEVICES

The General Contractor shall provide safety controls for protection of the life and health of employees and visitors. The General Contractor will utilize precautionary methods for the prevention of damage to property, materials, supplies, and equipment, and for avoidance of work interruptions in the performance of this Contract. In order to provide such safety control, the General Contractor shall comply with all pertinent provisions of the Kentucky Fire Prevention Code, Kentucky Building Code, Kentucky Labor Cabinet's Division of Occupational Safety and Health Program Construction Standards (29 CFR 1926 as adopted by 803 KAR 2:400 through 2:425) and Federal Occupational Safety and Health (Construction) Standards that are in effect at the time the Contract is entered into and during the period in which the Contract is to be performed.

The General Contractor shall provide a written safety program which includes all pertinent written specialty standards such as, but not limited to, Control of Hazardous Energy Sources (Lockout/Tagout), Hazard Communications Program, First Aid, Blood Borne Pathogen Program, Respirator Use Program and Hearing Conservation Program. The General Contractor shall require all Sub-contractors to have an effective written safety program or be required to follow the General Contractor's written safety program.

The General Contractor shall maintain an accurate record of and shall report to Kentucky Labor Cabinet's Division of Occupational Safety and Health in the manner and on the forms prescribed by that Division, exposure data and all accidents resulting in death, traumatic injury, and occupational disease. The General Contractor shall maintain an accurate record of and shall report to the Owner's Project Manager, any damage to property, materials, supplies, and equipment incident to Work under this Contract.

The Kentucky Labor Cabinet's Division of Occupational Safety and Health may notify the General Contractor of any noncompliance with the foregoing provisions. The General Contractor shall, after receipt of such notice, immediately correct conditions. Notice delivered to the General Contractor or the General Contractor's representative at the site of the Work shall be deemed sufficient for this purpose. If the General Contractor fails or refuses to comply promptly, the Owner may issue an order stopping all or part of the Work until satisfactory or corrective action has been taken. Failure or refusal to comply with the order will be grounds for reducing or stopping all payments due under the Contract to the General Contractor. No part of the construction time lost due to any such stop order shall be cause for, or the subject of a claim for, extension of time or for additional costs or damages by the General Contractor.

The General Contractor or any Sub-contractor shall immediately contact the University of Louisville through the Owner's Project Manager should they be selected for an inspection by the Kentucky Occupational Safety and Health Compliance Division.

Compliance with the provisions of the foregoing sections by Sub-contractors shall be the responsibility of the General Contractor.

Nothing in the provisions of this Article 14 shall prohibit the U.S. Department of Labor or the Kentucky Department of Labor Division of Occupational Safety and Health from enforcing pertinent occupational safety and health standards as authorized under Federal or State Occupational Safety and Health Standards.

The General Contractor shall take all necessary precautions for the safety of employees on the work, and shall comply with all applicable provisions of federal, state, and municipal safety laws and building codes to prevent accidents or injury to persons on, about, or adjacent to the premises where the Work is being performed. If the General Contractor or any Sub-contractor has questions related to the health or safety required by their written safety program, they should contact the Kentucky Labor Cabinet Occupational Safety and Health Program Division of Education and Training. The General Contractor shall designate a responsible member of the on-site work force as the safety officer and shall report to the Consultant and to the Owner the name of the person selected. The duties of the safety officer include the enforcement of all safety regulations.

ARTICLE 12 - INSPECTION OF WORK

The Owner, the architect, and their representative shall at all times have access to the work whenever it is in preparation or progress and the Contractor shall provide proper facilities for such access and for inspection. The architect shall be given timely notification in order to arrange for proper inspection of any work performed outside of the normal working day or week.

If the specifications, the architect's instructions, laws, ordinances, or any public authority require any work to be specially tested or approved, the Contractor shall give the architect timely notice of its readiness for inspection. Inspections by the architect shall be made promptly.

If any portion of the work should be covered contrary to the request of the architect, or to requirements specifically expressed in the contract documents, it must, if required in writing by the architect, be uncovered for his observation and shall be replaced at the Contractor's expense.

If any other portion of the work has been covered, which the architect has not specifically requested to observe prior to being covered, the architect, with the Owner's approval, may request to see such work and it shall be uncovered by the Contractor. If such work be found not in accordance with the contract documents, the Contractor shall pay such costs unless it be found that this condition was caused by the Owner, or a separate Contractor employed by the Owner, in which event the Owner shall be responsible for the payment of such costs.

ARTICLE 13 - INSPECTION AND TESTING OF MATERIALS

All inspection and testing costs required by the contract documents shall be paid for by the Contractor.

All test costs required beyond the initial test to verify the requirements of the contract documents on Item shall be paid by the Contractor of record. The Owner will not pay costs for retesting required for incorrect work or materials.

ARTICLE 14 - SUPERINTENDENT - SUPERVISION

A qualified superintendent and any necessary assistants shall be maintained on the work site and give efficient supervision to the work until its completion. The superintendent shall have full authority to act in behalf of the Contractor and all instructions given to the superintendent shall be considered as given to the Contractor. It shall be the responsibility of the Contractor's superintendent to coordinate work of all the subcontractors.

The superintendent shall not be changed unless he proves to be unsatisfactory to the Contractor and ceases to be in his employ. The Contractor shall give timely notice to the Owner of a change in the superintendent and a reasonable explanation for the change.

ARTICLE 15 - CHANGES IN THE WORK

The Owner, without invalidating the contract, may as the need arises, order changes in the work by deletion or modification. All such changes to the work shall be authorized by change order and be executed under the conditions of the original contract. The Multi-Part hard copy Change Order form for Construction and Renovation projects has been discontinued and has been replaced with an electronic PDF version of the same document. This form can be found at the Department of Purchasing website <http://louisville.edu/purchasing/forms> Contract amount and time of completion shall be adjusted at the time of ordering such change. The value of any such change in work shall be determined in one or more of the following methods:

- A. By mutual acceptance of a lump sum.
- B. By unit prices named in the contract or subsequently agreed upon. Under either method, proposals for change in work shall be accompanied by a complete itemization of net costs for labor and materials, including the work of all subcontractors. In no case will a change be approved without such detailed itemization.

If the then existing circumstances indicate the impracticability or impossibility of proceeding under either of the above methods, the Owner may direct the Contractor to proceed with the change in the work, for which the Contractor shall be paid the actual cost for labor, direct overhead, materials, supplies, equipment, and other services necessary to complete the work. The Contractor shall keep and present in such form as the Owner may direct, a correct amount of all items comprising the net cost of such work, together with vouchers, including the cost to the Contractor of all labor, common and skilled, foremen, and the fair rental of all machinery together with reasonable transportation cost of machinery not on the site.

In any event, it is agreed and understood that an amount not to exceed fifteen percent (15%) shall be added to the actual net cost of the change of work as defined within. It is further agreed and understood that said maximum addition of fifteen percent constitute the exclusive cost for direct overhead and profit for work performed by either the general Contractor and/or their contracted sub-contractor.

In the case of the work being performed solely by a Subcontractor, the Contractor's mark-up shall not allocate more than one third of the total markup (1/3 of the 15% or 5%), for the Subcontractor's portion of the specified change of work.

The Contractor shall not include in the net cost of change of work any cost or rental of small tools, or any portion of the time of the Contractor or his superintendent, or any allowance for the use of capital, insurance or bond premium, or any actual or anticipated profit, or job or office overhead not previously mentioned, these items being considered as being covered under the added amount for general overhead. Pending final determination of value, partial payments on account of changes in work may be made on recommendation of architect.

The architect may authorize minor changes in the work, not involving extra cost and time extension, provided the changes are not inconsistent with the purpose of the work.

If the Contractor claims that any instructions by the architect involve additional cost and/or time extension, he shall give the architect written notice thereof within a reasonable timeframe after the receipt of such instructions and before proceeding to execute the change in work.

ARTICLE 16 - CONCEALED CONDITIONS

Should concealed conditions encountered in the performance of the work below the surface of the ground, or should concealed or unknown conditions in an existing structure be at variance with the conditions indicated by the contract documents, or should unknown physical conditions in an existing structure of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract be encountered, the contract sum and completion times if applicable shall be equitably adjusted by change order upon claim by either party made within twenty days after the first observance of the conditions.

ARTICLE 17 - DEDUCTIONS FOR UNCORRECTED WORK

If the Owner deems it not expedient to correct work damaged, or not done in accordance with the contract, an equitable deduction from the contract price shall be made therefore.

ARTICLE 18 - DELAYS AND EXTENSION OF TIME

It is agreed that time is of the essence for each and every portion of this contract and where under the contract an additional time is allowed for the completion of any work, the new time limit fixed by such extension shall be of the essence of this contract. Provided, that the Contractor shall not be charged with liquidated damages or any excess cost when the delay in completion of the work is due to:

- (a) Any preference, priority, or allocation order duly issued by the government;
- (b) Unforeseeable cause beyond the control and without the fault or negligence of the Contractor, including, but not restricted to acts of God or of the public enemy, acts of the Owner, acts of another Contractor in the performance of a contract with the Owner, fires, floods, epidemics, quarantine restrictions, strikes freight embargoes and unusually severe weather;

Any change in the contract time resulting from any such claim shall be incorporated in a change order. An extension of time shall not be construed as cause for extra compensation under the contract.
- (d) Unusual inclement weather as used herein means unusually severe weather which is beyond the normal weather recorded and expected for the locality and/or the seasons of the year. Normal weather shall be determined based on records for the station of the United States Environmental Data Service show in Article 19 of the General Conditions.

- C. For the purpose of this Contract, "Unusual Inclement Weather" will be interpreted as those days in excess of the number of days shown in the final column under PRECIPITATION on which rainfall exceeded 0.1 inch and in the final column under temperature on which maximum temperature was below 32 degrees F.

-
- E Request for additional days in construction due to “Unusual Inclement Weather” shall be communicated to the Owner and Owner representative no less than 48 hours after such event occurs. If approved by the Owner the additional days will be incorporated via Change Order to original contract.

ARTICLE 20 - CORRECTION OF WORK BEFORE FINAL PAYMENT

The Contractor shall promptly remove from the premises all materials rejected by the architect that fail to conform to the contract, whether incorporated in the work or not, and the Contractor shall promptly replace and re-execute the work in accordance with the contract and without expense to the Owner and shall bear the expense of making good all work of other Contractors destroyed or damaged by such removal or replacement.

ARTICLE 21 - CORRECTION OF WORK AFTER FINAL PAYMENT

Neither the final certificate of payment nor any provisions in the contract documents shall relieve the Contractor of responsibility for faulty materials or workmanship and, unless otherwise specified, he shall remedy any defects due thereto and pay for any damage to other work resulting there from, which shall appear within a period of one year from date of the acceptance of the work by the Owner. The Owner shall give notice of observed defects with reasonable promptness.

ARTICLE 22 - TERMINATION OF CONTRACT FOR CONVENIENCE OF OWNER

A. The Owner may terminate the contract for its own convenience when it is determined by the contracting authority that such termination will be in the best interest of the University of Louisville. When it has been determined that a contract should be terminated for the convenience of the University, the contracting authority shall give reasonable written notice and negotiate a fair and just settlement with the Contractor in accordance with published regulations of the Office of Facilities Management.

B. The Contractor shall have the burden of establishing the amount of compensation to which he believes himself to be entitled by the submission of complete and accurate cost data employed in submitting his bid or proposal for the contract, and evidence of expenses paid or incurred in performance of the contract from the date of award through the date of termination for convenience.

ARTICLE 23 - TERMINATION OF CONTRACT FOR DEFAULT ACTION OF CONTRACTOR

If the Contractor should be adjudged a bankrupt, or if he should make a general assignment for the benefit of his creditors, or if a receiver should be appointed on account of his insolvency, or if he should persistently or repeatedly refuse or should fail, except in cases for which extension of time is provided, to supply sufficient skilled workmen, adequate equipment, or proper material, or if he should fail without proper cause to make prompt payment to subcontractors, or for material or labor, or persistently disregard laws, ordinances, or the instruction of the architect, or otherwise be guilty of a substantial violation of any provision of the contract, then the Owner, upon the certification by the architect that sufficient cause exists to justify such action, may without prejudice to any other right or remedy and after giving the Contractor three (3) days written notice by registered mail of declaration of default, take possession of the premises and all materials and building components thereon, and finish the work in accordance with laws of the Commonwealth.

In such case, the Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the contract price shall exceed the expense of finishing the work, including compensation for additional managerial and administrative services, such excess shall be paid to the Contractor. If any such expense shall exceed such unpaid balance, the Contractor shall pay the difference to the Owner. The expense incurred by the Owner, as herein provided, and the damage incurred through the Contractor's default shall be certified by the architect.

ARTICLE 24 - SUSPENSION OF WORK

A. The Owner

1. The Owner may, for reasons exclusive of any court order or other types of litigation, suspend the work or any portion thereof for a period of not more than thirty (30) days or such further time as agreed upon by the Contractor without causing termination of the contract. The notice of suspension shall be in writing and shall set forth the reason for the suspension. The written notice shall fix the approximate date on which work is contemplated to be resumed. The Owner will allow reimbursement of direct job expenses or extension of time, or both, directly attributable to the suspension.

2. In the event the Owner should be prevented or enjoined by court order from proceeding with the work or from authorizing its prosecution, either before or after the award and work order, by reason of any litigation for a period of up to ninety (90) days, the delay shall not constitute cause for termination and the Contractor shall not be entitled to make or assert claim for damage by reason of said delay; but the time for completion of work will be extended to such reasonable time as the owner may determine will compensate for time lost by such delay. Such determination to be set forth in writing.

B. The Contractor

If, through no act or fault of the Contractor, the work is suspended for a period of more than thirty (30) days by the Owner, or more than ninety (90) days under an order of court or other public authority, or the architect fails to act on any request for payment within thirty (30) days after it is submitted, or the Owner fails to pay the Contractor the sum certified by the architect or awarded by the court within fifteen (15) days of its approval and presentation, then the Contractor may, after ten (10) days from delivery of a written notice to the Owner and the architect, terminate the contract and recover from the Owner payment for all work executed and reasonable expense sustained. In addition and in lieu of terminating the contract, if the architect has failed to act on a request for payment, or if the Owner has failed to make any payment as aforesaid, the Contractor may upon ten (10) days written notice to the Owner and the architect stop the work until he has been paid all amounts then due, in which event and upon resumption of the work, a change order shall be issued for adjusting the contract price or extending the contract time, or both, to compensate for the costs and delays attributable to the stoppage of the work.

ARTICLE 25 - TIME OF COMPLETION

The Contractor shall begin work and mobilize on site within ten (10) calendar days after having received written notice to proceed by the Owner. He shall carry the work forward expeditiously with adequate forces and management process for achieving completion within the contract time. All time limits stated in the Contract Documents are of the essence to the contract.

The contract time, unless otherwise provided, is the period of time specified in the Contract Documents for final completion as defined hereinafter, including authorized adjustments thereto. See , "Agreement of Contract", for mandatory completion dates and construction time.)

Substantial Completion of the work: Shall mean when the work is sufficiently complete, so that the architect and Owner may inspect the work to determine items requiring correction or completion for final acceptance.

The date of substantial completion shall be that date certified by the architect in accordance with the following procedures that the work is sufficiently complete to inspect.

(1) When the Contractor considers the work is substantially complete, he shall submit a written declaration of his consideration to the architect and a request for an inspection. The declaration and request shall be accompanied by a Contractor prepared list of those items of work still to be completed or corrected. The failure of the Contractor to include any item or items on such list not completed or needing correction shall not alter the responsibility of the Contractor to complete all work in accordance with the contract documents.

(2) The architect shall, within a reasonable time after receipt of notification from the Contractor of declaration of substantial completion and request for inspection, notify the owner of the date for inspection and make the inspection.

(3) If the architect considers the work substantially complete, he shall prepare a Certificate of Substantial Completion which shall establish the rate of substantial completion and a list of items to be completed or corrected, and shall fix the time within which the Contractor shall complete the items listed. This time shall not exceed thirty (30) calendar days. The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance.

(4) If, after making the inspection, the architect does not consider the work substantially complete, he will notify the Contractor in writing, giving the reasons therefore.

Final Completion - The architect, upon receipt of written notice from the Contractor that the work is complete and is ready for final inspection and acceptance, will promptly make such inspection and when he finds the work completed and acceptable under the contract documents and the contract fully performed, he will so notify the Contractor in writing and promptly certify a final Certificate for Payment to the Owner accompanied by final certificate of occupancy from the Kentucky Department of Building and Housing. If the architect finds the work not complete he shall notify the Contractor and the owner. The Contractor shall then apply every effort to complete the work within the time allotted at the time of substantial completion. If the Contractor fails to complete the work in the time allotted, liquidated damages will be assessed as described in Article 3 of the Agreement of Contract. If additional inspection is required, the Contractor shall reimburse the architect for the time required for this inspection at the architect's established hourly rate.

Beneficial Occupancy - The owner may, should circumstances require, receive beneficial occupancy of the works or parts thereof for the use for which it is intended. Such occupancy shall not occur until after substantial completion. At the time of beneficial occupancy, the owner accepts responsibility for the operation, maintenance, utilities and insurance. The Owner shall notify the architect and the Contractor prior to substantial completion that he will require beneficial occupancy and the Contractor shall provide the Owner at the time of substantial completion a preliminary certificate of occupancy issued by the Kentucky Department of Building and Housing.

The Contract Time is the specified number of consecutive Calendar Days following the commencement of the Work as stated within the Special Terms and Conditions has to complete the Work required by the Contract. The General Contractor shall begin the Work within Ten (10) calendar days of the date of commencement as specified in the Work Order/Purchase Order. All time limits stated in the Contract Documents are of the essence of the Contract. The end of the Contract Time shall be the date specified by the Consultant on the certificate of Substantial Completion. The time for completion set forth in the Contract is a binding part of the Contract upon which the Owner may rely in planning the use of the facilities to be constructed and for all other purposes.

Substantial Completion is defined in Definitions of this article of the GTC's. Only incidental corrective Work under punch lists and final cleaning (if required) for Owners full use shall remain for Final Completion. The ability to occupy or utilize shall include regulatory authority approval unless regulatory approval is delayed due to actions of the Owner or the Consultant. When the Owner accepts and occupies a portion of the Project, the operation, maintenance, utilities, and insurance of that portion of the Project becomes the responsibility of the Owner.

The date of Substantial Completion shall be that date certified by the Owner or Consultant, in accordance with the following procedures, that the Work is sufficiently complete to occupy or utilize as defined above.

When the General Contractor considers the entire Work is substantially complete as defined within the Definition section of these General Conditions, and is ready for its intended use, the General Contractor shall notify the Consultant in writing and request an inspection. The declaration and request shall be accompanied by a list prepared by the General Contractor of those items of Work still to be completed or corrected. The failure of the General Contractor or Consultant to include any item or items, which are not completed or which need correction, on such list

shall not alter the responsibility of the General Contractor to complete all Work in accordance with the Contract Documents.

The Consultant shall, within a reasonable time after receipt of notification from the General Contractor of a declaration of Substantial Completion and request for inspection, make such inspection. Prior to the Substantial Completion Inspection and within sufficient time to allow the Consultants review, the General Contractor shall submit all as built drawings, catalog data, complete operating and maintenance instructions, manufacturer specifications, certificates, warranties, written guarantees and related documents required by the contract. The Consultant shall review said documents for accuracy and compliance with the Contract Documents and incorporate them into complete operating instructions and deliver them to the Owner.

If the Consultant considers the Work substantially complete, the Consultant shall recommend and prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion and the responsibilities between the Owner and General Contractor for security, maintenance, heat, utilities and insurance, if not otherwise provided for in the Contract Documents, and a tentative list of items to be completed or corrected, and shall fix the time within which the General Contractor shall complete the items listed therein. This time shall not exceed thirty (30) Calendar Days unless otherwise provided for in the established contract. The Certificate of Substantial Completion shall be submitted to the Consultant and General Contractor for their written acceptance of the responsibilities assigned to them in the certificate. The Project shall not be deemed substantially complete until the certificate is issued. If, after making the inspection, the Consultant does not consider the Work substantially complete, the Consultant will notify the Owner and the General Contractor in writing, giving the reasons therefore.

Operation and Maintenance Manual Deliverables. In anticipation and preparation of completion of the Work and the closing out of the Project, and to facilitate training of the Owner's personnel in the maintenance and operation of the new installations, the Contractor shall comply with the requirements specified within Special Conditions section of this document. (For the purposes of this article, air test and balance reports may be submitted at a later date with the request for certification of substantial completion.) These manuals shall be submitted to the Consultant for approval, and subsequently forwarded to the Owners Project Manager by or before the time construction is 75% complete, as reflected by the Contractor's most recently submitted Application for Payment.

The provisions of ARTICLE 34 - LIQUIDATED DAMAGES notwithstanding, if the General Contractor meets the requirements of ARTICLE 25 - TIME OF COMPLETION above with respect to timely submittal of approvable Operation and Maintenance manuals and provided the project construction is: 1) at least 75% complete and 2) is equal to or ahead of the approved progress schedule and 3) the Work completed is in compliance with the requirements of the contract documents, the Owner, at the sole discretion of the Director, Planning Design and Construction may reduce the retainage to not less than three percent (3%) of the current Contract Amount. In the event progress falls behind the approved progress schedule, the full 5% will immediately be reinstated by the Owner including all past retainages not held.

In the event the General Contractor fails to submit acceptable O&M manuals prior to reaching 75% completion, it is agreed that the Owner at its sole discretion may deduct from the current and subsequent Applications for Payment an amount deemed by the Owner to be sufficient to encourage prompt compliance with this contractual requirement. Until such time as acceptable O&M manuals are received.

As Built Drawings. A qualified representative of the General Contractor shall record on these documents, from day to day as Work progresses, all changes and deviations from the Contract Documents. Prior to Substantial Completion, the General Contractor shall complete and turn over to the Consultant the As-Built drawings, with a digital copy (in PDF format) submitted to the Owner simultaneously. The As-Built drawings shall consist of a set of drawings which indicate all field changes that were made to adapt to field conditions, changes resulting from Change Orders and all concealed and buried installations of piping, conduit and utility services. All buried and concealed items, both inside and outside the facility, shall be accurately located on the As-Built drawings as to depth and in relationship to not less than two permanent features such as interior or exterior wall faces. The As-Built drawings shall be clean and all changes, corrections and dimensions shall be given in a neat and legible manner in a contrasting color. For any changes or corrections in the Work which are made subsequent to the Substantial Completion inspection, revisions

shall be made to the As-Built drawings and submitted to the Consultant prior to final payment. Approval of the final payment request shall be contingent upon compliance with these provisions

Project Close Out. When the Contractor considers that all Work required by the Contract is 100% complete, including correction of any remaining punch list work or deficiencies, the Contractor shall notify the Consultant in writing and request a final inspection. The Consultant, upon receipt of written notice from the Contractor that the Work is complete and is ready for final inspection and acceptance, will promptly make such inspection and when the Consultant finds the Work completed and acceptable under the Contract Documents and the Contract fully performed, the Consultant will so notify the Contractor in writing to submit, and will certify to the Owner a final Certificate for Payment submitted in accordance ARTICLE 26- PAYMENT TO THE GENERAL CONTRACOR of these General Conditions. If the Contractor does not complete the punch items within the time designated, the Owner retains the right to have these items corrected at the expense of the Contractor including all architectural, engineering and inspection costs and expenses incurred by the Consultant and the Owner and to deduct such costs and expenses from the funds being held in retainage. The Owner shall not be required to release the retainage until such items have been completed.

ARTICLE 26- PAYMENT TO THE GENERAL CONTRACOR

Payments on account of this Contract shall be made monthly as Work progresses. The General Contractor shall submit to the Consultant, in the manner and form prescribed, an application for each payment, and, if required, receipts or other vouchers showing payments made for materials and labor (including certified payrolls and or payment affidavits), including payments to all tiered Sub-Contractors for labor (including certified payrolls and or payment affidavits) and materials. All payments shall be subject to any withholding or retainage provisions of this contract. All payment request documents except the final payment shall be submitted in whole dollar amounts. All payment applications from the General Contractor shall include line items for overhead profit and general condition costs. The Multi-Part hard copy Invoice form for Construction and Renovation projects has been discontinued and has been replaced with an electronic PDF version of the same document. This form can be found at the Department of Purchasing website <http://louisville.edu/purchasing/forms>

Effective 7-1-13: Per Article 17 of Instructions to Bidders, Monthly Employment Utilization Reports (EUR) are required to be submitted with monthly pay submission/requests to the University of Louisville by the prime contractor if contracts are in excess of \$10,000 or more. Prime contractor must ensure subcontractors comply with these same requirements. EUR form is available at <http://louisville.edu/purchasing/forms> Failure to submit EUR for work performed may delay payments from the University without penalty.

The Consultant shall within ten (10) Business Days after receipt of each application for payment, shall certify approval of payment in writing to the Owner and present the application to the Owner or return the application to the General Contractor indicating in writing its reasons for refusing to approve payment. The Owner, provided no exception is taken to the application for payment submitted by the Consultant, will issue payment on or within forty five (45) Business Days from the date received from the Consultant. A reasonable delay on the part of the Owner in making payment to the General Contractor for any given payment shall not be grounds for breach of Contract. The Consultant may refuse to approve the whole or any part of any payment if it would be incorrect to make such presentation to the Owner.

If payment is requested on the basis of materials and equipment not incorporated in the Work, but delivered and suitably stored at the site or at another location agreed to in writing, the General Contractor must furnish the following:

A list of the materials consigned to the Project (which shall be clearly identified) giving the place of storage, together with copies of invoices.

Certification that all items have been tagged for delivery to the Project and that they will not be used for any other purpose.

A letter from the Surety indicating that the Surety agrees to the arrangements and that payment to the General Contractor shall not relieve either the General Contractor or its Surety of their responsibility to complete the Work.

Evidence of adequate insurance listing the Owner as an additional insured covering the material in storage.

Evidence that representatives of the Consultant have visited the General Contractor's place of storage and checked all items listed on the General Contractor's certificate. They shall certify, insofar as possible, that the items are in agreement with the Specifications and approve their incorporation into the Project.

The Owner will pay 80% of the invoiced value less retainage for materials stored off site providing the above conditions are met.

The General Contractor's signature on each subsequent application for payment shall certify that all previous progress payments received on account of the Work have been applied to discharge in full all of the General Contractor's obligations reflected in prior applications for payment.

Each payment made to the General Contractor shall be on account of the total amount payable to the General Contractor and the General Contractor warrants and guarantees that the title to all materials, equipment and Work covered by the paid partial payment shall become the sole property of Owner free and clear of all encumbrances. Nothing in this Article shall be construed as relieving General Contractor from the sole responsibility for care and protection of materials, equipment and Work upon which payments have been made or restoration of any damaged Work or as a waiver of the right of Owner to require fulfillment of all terms of the Contract Documents.

Prior to submitting the first application for payment, the General Contractor shall submit to the Consultant and the Owner for approval a detailed breakdown of the Contract Amount pursuant to CSI specification divisions, divided so as to facilitate payment and correlated to the schedule required within General Conditions of the Contract Documents. The total value of all activities shall add up to the Contract Amount. When approved by the Consultant and the Owner, this schedule shall be used as a basis for General Contractor's applications for payment and may be used by the Owner to determine costs or credits resulting from changes in the Work. Failure to obtain the approval of the Schedules of Values shall be a basis for withholding payment to the General Contractor.

Retainage — The Owner will retain ten percent (10%) of the General Contractor's progress payments until fifty one percent (51%) of the construction project has been completed. Thereafter, if the Work is fully in compliance with the requirements of the Contract and except as provided for in above, the Owner shall retain five percent (5%) of the total contract amount until Substantial Completion and acceptance of all Work covered by this Contract, as collateral security to insure successful completion of the Work. For the purposes of this Article, the term "in full compliance" shall mean: 1) that the progress of the Work is equal to or ahead of that predicted by the Project Baseline CPM schedule and 2) the Work completed is in compliance with the requirements of the contract documents. Subsequent to the issuance of the Substantial Completion Certificate and depending upon the cost involved for the completion and/or correction of punch list items, the Consultant may recommend to the Owner an adjustment to the amount being held as retainage and, if approved by Owner. The amount of retainage may then be reduced and a sufficient sum retained by Owner to cover the uncompleted Work. Retainage reduction as provided for in this Article is contingent upon the General Contractor and/or Subcontractors being on or ahead of the approved progress schedule and on verification by the Consultant that the Work completed is in compliance with the requirements of the contract documents.

In addition to the retainage set forth above, the Owner may withhold from any monthly progress payments or nullify any progress payments in whole or in part as necessary to protect the Owner from loss on account of:

Defective Work which has not been remedied or completed Work which has been damaged requiring correction or replacement, or

If the Owner has been required to correct Defective Work or complete Work which the General Contractor has failed or refused to correct or complete, or

If the General Contractor has failed to perform any of its obligations under the Contract, or

Failure of the General Contractor to make payments properly to Sub-contractors; suppliers of material, services or labor; or to reimburse the University for utilities or other services as provided for in the Contract;

Amounts to be withheld as liquidated damages for failure to complete the Project in the allotted Contract time.

When the Owner is satisfied that the General Contractor has remedied any such deficiency, payments shall be made of the amount being withheld on the next scheduled application for payment.

Final Payment — When all Work is completed and acceptable and the Contract is fully performed the General Contractor will be directed to submit a final payment application for certification and the entire balance shall be due and payable upon a certification of completion by the Consultant that the Work is in accordance with the Contract Documents.

Upon issuance of the Certificate of Final Completion by the Owner and submittal by the General Contractor of all required documents and releases, all retained amounts shall be paid to the General Contractor as part of the Final Payment. By accepting such payment, the General Contractor certifies that all amounts due or that may become due to any Sub-contractor, any Consultant of the General Contractor, or any vendors or material suppliers, have been paid or will be paid from the proceeds of the final payment; and that, further, there are not liens, claims or disputes involving the Owner or the Consultant that are outstanding or unresolved.

The General Contractor shall promptly pay each Sub-contractor and material supplier upon receipt of payment from the Owner the amount to which said Sub-contractor and supplier is entitled, reflecting the percentage actually retained from payments to the General Contractor on account of such Sub-contractor's work. The General Contractor shall, by an appropriate Agreement with each Sub-contractor and material supplier, require each Sub-contractor and supplier to make payments to their sub-contractors, vendors and suppliers in similar manner.

The Consultant may, on request, furnish to any Sub-contractor or material supplier information regarding the percentages of completion applied for by the General Contractor and the action thereon by the Consultant.

Neither the Owner nor the Consultant shall have any obligation to make payment to any Subcontractor or material supplier except as may otherwise be required by law.

ARTICLE 27 – CONTRACTOR'S PAYMENT TO SUBCONTRACTOR

The Contractor shall promptly pay each subcontractor upon receipt of payment from the Owner the amount to which said subcontractor is entitled, reflecting the percentage actually retained, if any, from payments to the Contractor on account of each subcontractor's work. The Contractor shall, by an appropriate agreement with each subcontractor, require each subcontractor to make payments to his subcontractors in similar manner.

The architect may, on request, furnish to any subcontractor, information regarding the percentage of completion of the amounts applied for by the Contractor and the action thereon by the architect.

Neither the Owner nor the architect shall have any obligation to make payment to any subcontractor except as may otherwise be required by law.

ARTICLE 28 - USE OF COMPLETED PORTIONS

By mutual agreement between the Owner, Contractor, and architect, the Owner may use a specified part of the project after an inspection is made. Such possession and use shall not be deemed an acceptance of any work not completed in accordance with the contract documents.

ARTICLE 29 - INDEMNIFICATION

A. To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the Owner, the architect and their agents and employees from and against all claims, damages, loss and expenses, including attorney's work, provided that any such claim, loss, damage or expense (a) is attributable to bodily injury to or destruction of tangible property (other than the work itself) including the loss of use resulting therefrom, and (b) is caused in whole or in part by any negligent act or omission of the Contractor, any subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a party indemnified hereunder.

B. In any and all claims against the Owner, the architect or any of their agents or employees by any employee of the Contractor, any subcontractor, any one directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation under this paragraph shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the Contractor any subcontractor under workmen's compensation acts, disability benefit acts or other employee acts.

The obligations of the Contractor under this paragraph shall not extend to the liability of the architect, his agents or employees, arising out of;

- (1) the preparation or approval of maps, drawings, opinions, reports, surveys, change orders, designs or specifications, or
- (2) the giving of or the failure to give directions or instructions by the architect his agents, or employees, provided such giving or failure to give is the primary cause of injury or damage.

ARTICLE 30 - INSURANCE

Before the Contractor becomes entitled to any rights under this contract and prior to taking any action under this contract, Contractor shall have a Certificate of Insurance for Contractor's in-force insurances issued to the owner for the following policies and limits

MINIMUM COVERAGE AMOUNT

These policies shall be primary and noncontributing with any insurance carried by the University and shall contain a severability of interests clause in respect to cross liability, protecting each Additional Insured as through a separate policy had been issued to each. Certificate of the above policies shall be furnished, to the University, at least thirty (30) days prior to the commencement of services provided under this Contract.

All Certificates of Insurance must clearly state that the Contractor's insurance(s) is PRIMARY. If Contractor's policy has deductibles, self-insured retentions or co-insurance penalties, then all such costs shall be solely borne by Contractor and not by the University. The University will not share in any policy deductibles.

It is hereby agreed that in event of a claim arising under this policy, the company will not deny liability by reason of the Additional Insured being a state, county, municipal corporation or governmental agency.

The limits listed above may be accomplished through a combination of primary and excess/umbrella liability policies written on a "follow form" basis or forms no more restrictive than the primary policies.

The performance and payment bond(s) shall be executed by a Surety Company authorized to do business in the Commonwealth of Kentucky, and the contract instrument of bonds must be countersigned by a duly appointed and licensed agent resident of Kentucky. The surety company must have an AM Best rating of "A-" or higher and be "Treasury Listed". Bonds shall not expire until the specified warranty period required by the contract expires.

ARTICLE 33 - CLAIMS FOR DAMAGE
