Any other taxes levied upon the resulting contract, the transaction, equipment, or services delivered pursuant hereto shall be the responsibility of the awarded Supplier.

The awarded Supplier will be required to accept liability for payment of all payroll taxes or deductions required by local and federal law (but not limited to) old age pension, social security, or annuities.

4.2. Temporary Parking Measures During Onsite Work

The purpose of this clause is to mitigate the impact of construction on the limited parking resources available for employees and visitors on campus. For all construction and renovation projects, bidders must submit a comprehensive construction plan if their work will affect existing parking spaces, pedestrian routes, or traffic flow. The submitted construction plan will be reviewed by the Director of Parking and Transportation Services. Approval of the plan is mandatory before the commencement of any construction activities that impact parking, pedestrian, or transportation routes.

Any changes to pedestrian routes or traffic flow due to construction activities must be clearly outlined in the construction plan. Safe and accessible alternate routes must be provided and approved as part of the plan review. Contractors are responsible for clearly marking affected areas and providing adequate signage to inform campus users of changes. This includes detour routes and temporary parking adjustments.

For any short-term or temporary loss of parking spaces due to construction, the awarded contractor will be assessed a daily fee. This fee will be equivalent to the current permit fee or the daily maximum rate for visitor parking, whichever is applicable. The fee will be charged per space for the entire duration of the project, ensuring compensation for the University's loss of parking resources. Information regarding fees and parking regulations can be found here: [University of Louisville Parking and Transportation](#). The Department of Parking and Transportation Services will periodically monitor the construction activities to ensure compliance with the approved plan. Any deviations or violations may result in additional fees or penalties.

4.3. Site Disturbance Policy

The contractor is responsible for all costs associated with any site modifications or site disturbances resulting from the contractor's logistic and construction plan. The contractor is responsible for restoring the site to its original condition upon the completion of construction.

4.4. Protection at Site

Pedestrian and automobile traffic near project sites shall be protected from injury and damage due to construction activities by appropriate means such as roping off walk or driveways, erecting warning signs, erecting snow fences and other positive ways which will divert traffic from areas of possible danger. Special attention shall be given to open trenches regarding pedestrian traffic with emphasis on blind or disabled pedestrians. Open trenches shall be fenced with snow fence and protected by audio means.

4.5. Clean-Up

It shall be the responsibility of the awarded contractor to keep the job site always policed and clean. Rubbish and trash shall be cleaned out and removed daily and the premises kept in a condition satisfactory to the University or the University's appointed representative.

A **final clean** is to be conducted at the very end of the project. The awarded contractor shall remove temporary protection/barricades, if any. The awarded contractor shall clean all surfaces exposed to view – which includes but is not limited to removing temporary labels, removing stains/foreign substances, and clean debris from roofs, gutters, downspouts, and drainage systems. The awarded contractor shall remove all waste, surplus materials, dumpsters, and toilet facilities from the site. The awarded contractor is to ensure that all areas of the job site are properly cleaned, safe, and ready for occupancy.

The final clean must be inspected and approved by a University representative.

4.6. Firm Pricing

Except as otherwise provided, bid prices must be firm for the first two (2) years of any resulting contract from this solicitation. Bid prices subject to qualifications such as: in effect on receipt of contract/order, escalation, or other variables, may be rejected as non-responsive.

4.7. Payment Terms

Payment terms are NET 30. The Contractor shall be paid monthly, as work progresses, upon the submission of proper invoicing. The first invoice must include a schedule of values for approval which equals the contract total. All invoicing must include a progress schedule of values which shows work completed. All invoicing must be signed and approved by a UofL Project Manager.

4.8. Freight – F.O.B. Destination

All bids in response to this solicitation must be based on F.O.B Destination, all freight prepaid and add, included in the Unit Price. No other terms are acceptable; any bids that do not comply with the above will be rejected. The Supplier will be fully responsible for all items while in transit, including returns. Any freight claims will be the responsibility of the Supplier.

Large scale products may require delivery to the specific building locations. Bidders shall be required to make inside building deliveries if required within the bid specifications.

4.9. Deliveries

Unless otherwise specified in this solicitation, delivery as soon as possible is desired; therefore, consideration may be given to the earliest date as stated by the Bidder.

Bidders must quote actual delivery time; estimates are not appropriate. If necessary, Bidders should contact manufacturer for delivery time on products not in stock.

As provided in this solicitation, the Bidder will clearly state in their bid the time required for the delivery upon receipt of contract or purchase order. Delivery time must be specific and such phrases “as required”, “as soon as possible”, or “prompt” have no meaning and will cause for rejection of the bid.

When delivery is not made as provided in the resulting contract, University Procurement Services reserves the right to make the purchase on the open market, with any cost more than the contract price paid by the successful Bidder. Failure of the Supplier to meet contract delivery dates may also be cause for cancellation, removal from the University Bidder’s List, or both.

4.10. Multiple Delivery Locations

Most orders will be delivered to a single location (Department or Central Receiving, Belknap Campus, Louisville, KY). However, the University does support Outreach Offices located throughout the Commonwealth of Kentucky. Submission of Bid indicates your company’s acceptance to make deliveries to all University locations at the same price and discounts. Due to the changing needs of higher education, the University reserves the right to add/delete delivery sites to the established contract resulting from this solicitation. Bidders must have the capability to deliver furniture items directly to the ordering department, if applicable.

- iii. The reports required by Paragraph (i) of this clause shall include, but not be limited to, periodic reports which shall be filed at least quarterly with the appropriate local office or where the Supplier has more than one establishment in a state, with the central office of the state employment service.
