

The following is a the list of current IACUC Policies (the bolded, dark words) as they are associated with requirements from *The Guide for the Care and Use of Laboratory Animals* (the Guide).

Guide: Chapter, Section, and Subsection Titles

- 2.0.0.0 *Animal Care and Use Program*
- 2.2.0.0 *Program Management*
- 2.2.1.0 *Program Management Responsibility*
- 2.2.1.4 *Collaborations*
- Research Involving Collaborating Institutions**
- 2.2.2.0 *Personnel Management*
- 2.2.2.1 *Training and Education*
- Required Training**
- 2.2.2.2 *Occupational Health and Safety of Personnel*
- Individual Risk Assessment and Medical Surveillance**
- Hazardous Agent Review and Approval**
- 2.2.2.4 *Investigating and Reporting Animal Welfare Concerns*
- Reporting and Investigating Animal Welfare Concerns**
- 2.3.0.0 *Program Oversight*
- 2.3.1.0 *The Role of the IACUC*
- 2.3.1.2 *Protocol Review*
- Proposal Review and Approval**
- Modification of an Approved Proposal**
- Proposal Expiration**
- Tissue Sharing**
- Oversight of Core Animal Laboratories**
- The Use of Chicken/Avian Embryo**
- 2.3.1.3 *Special Considerations for IACUC Review*
- Tissue Harvesting for Rodent Genotyping**
- Use of Pharmaceutical-Grade Medications and Outdated Drug Supplies**
- Humane Endpoints**
- Use of Freund's Complete Adjuvant**
- Prolonged Physical Restraint**
- Research Studies Utilizing Privately Owned Animals**
- 2.3.2.0 *Post-approval Monitoring*
- Semi-Annual Program Review**
- 3.0.0.0 *Environment, Housing, and Management*
- 3.1.0.0 *Terrestrial Animals*
- 3.1.3.0 *Terrestrial Management*
- 3.1.3.1 *Behavioral and Social Management*
- Social Housing of Animals**
- 3.1.3.3 *Population Management*
- Rodent Breeding Colonies**
- Rodent Identification**
- 3.2.0.0 *Aquatic Animals*
- PI Maintained Non-Mammalian Housing**
- 4.0.0.0 *Veterinary Care*
- 4.1.0.0 *Animal Procurement and Transportation*
- 4.1.1.0 *Animal Procurement*
- Animal Acquisition**
- 4.1.2.0 *Transportation*
- Transporting Animals to Research Laboratories**
- 4.2.0.0 *Preventive Medicine*
- 4.2.1.0 *Animal Biosecurity*

Testing of Cell Lines and Other Biological Materials for Rodent Pathogens

4.2.2.0

Quarantine and Stabilization

Acclimation Periods for Newly-Received Animals

4.3.0.0

Clinical Care and Management

4.3.3.0

Recordkeeping

Individual Animal Records

4.4.0.0

Surgery

Performing Rodent Survival Surgery

4.5.0.0

Pain and Distress

Pain and Distress Class Categorization

4.6.0.0

Anesthesia and Analgesia

Use of Postoperative Analgesia Following Major Survival Surgery

Preparation, Storage, and Use of Tribromoethanol (Avertin)

4.7.0.0

Euthanasia

Euthanasia of Research Animals

5.0.0.0

Physical Plant

5.1.0.0

General Considerations

5.1.1.0

Location

Laboratory and Satellite Rodent Housing

5.5.0.0

Security and Access Control

Animal Security in Investigator Laboratories
