

2022 KY INBRE Electron Microscopy Workshop

August 4 | University of Kentucky and Online

This one-day hybrid workshop will focus on electron microscopy of biomedical specimens and give you an opportunity to:

- See active research from other KY INBRE EM Voucher recipients
- Tour University of Kentucky's Electron Microscopy Center
- See presentations of capabilities at the University of Louisville and Western Kentucky University
- Learn tips and tricks for EM sample prep and imaging, how to correct problematic issues and collaborative opportunities
- And an overview of the KY INBRE program.

In-person Workshop will be held at the University of Kentucky Gatton Student Center and restricted to 45. (Food and refreshments will be provided to those attending in-person.) Online Workshop is unlimited in attendance.

Registration is required. Register by Monday, July 25!

See our website for more details and registration form.
