

Ph.D in Biostatistics - Decision Science

Please note that students without a Master's degree in statistics, biostatistics, or a related discipline are not eligible to be admitted directly into the doctoral program. Students with an undergraduate degree may apply for the M.S. program. The deadline to apply is March 1 for the following Fall semester (no Fall or Spring admissions). All application materials listed below must be received by March 1.

- Electronic application submitted through <http://graduate.louisville.edu/apply> .
- Transcripts from all colleges and universities attended
- Foreign credential evaluation if applicant did not earn a graduate degree from a US college or University
- At least two letters of recommendation; the standard form is available at <http://graduate.louisville.edu/students/grad-rec.pdf> or the reference can write a letter and send it directly to the Graduate Admissions Office
- Statement of goals [750 words or less, indicate the program (M.S. or Ph.D.) and discipline (Biostatistics or Decision Science) for which you are applying]; student should indicate in statement if they would like to be considered for an assistantship or fellowship
- GRE scores and percentiles (85th percentile or better on Quantitative section is preferred)
