The Physical Plant Ad hoc Committee held a joint meeting with the CODRE Staff Concerns Committee on November 13, 2019. Tina Pierce from Physical Plant was also present. CODRE reported on the upcoming climate survey and discussed what might be done to attempt to increase the response rate for Physical Plant personnel, including having survey stations where personnel would have access to either a computer or a paper version of the survey and asking supervisors to provide personnel with 30 minutes of work time to complete the survey. CODRE and Physical Plant (Tina Pierce) also discussed what each entity is doing regarding professional development and recruiting for vacant positions.

The Physical Plant Ad hoc Committee held their regularly scheduled meeting on Wednesday, December 4, 2019. No work was able to be accomplished as only three members of the committee attended this meeting.

Respectfully submitted by,
Senator Barbara Bishop, Committee Chair
