

## SERVICES & FACILITIES

### 2018 Goals and Objectives Final Report

We only met a few times this year with a few other email meetings, but we were able to take care of the issues brought upon us with just a few phone calls or emails to physical plant.

I attended all of the UPDC meetings with copies of the information on SharePoint monthly.

We also took care of a few parking issues with a whole new set of rules/regulations coming from a new Task Force that is looking at a 5-10 year plan.

We will have new signs installed all around Belknap/HSC within a few months.

There is also talk about new restaurants on HSC.

Thanks,

Skip Hurley, Chair
