

Vice Chair Report
February 12, 2018
Presented by Vickie Tencer

Welcome to the New Year, I hope it will be prosperous for everyone.

January was a busy month with attending the Staff Senate Executive Committee Presidential listening session with the Board of Trustees and then the Presidential listening tours on both the Health Sciences campus and Belknap campus. I hope everyone was able to attend one of these tours. They were very informative. The website for the Presidential Search is: <http://louisville.edu/presidential-search>

As the Staff Senate Representative for the Network RFP, I attended three presentations by possible vendors along with several follow up meetings. Call back presentations are continuing.

Being the Staff Senate representative for the University of Louisville Athletics Association (ULAA) Board, I have attended the quarterly meeting for both the Personnel Committee and the ULAA board. The minutes from the board meeting are located at: <http://louisville.edu/president/athletic-association>

In January, I was appointed by Dr. Postel to be the Staff Senate Representative to the Athletic Director (AD) search committee. The committee membership has been established and the first meeting was in January. A search firm will be retained to assist in the search.

A Performance Management Workgroup has been formed, consisting of key stakeholders. I was requested to be the Staff Senate representative. The workgroup held its first, very productive meeting. Additional meetings are scheduled.

I have participated in the Leadership meetings with the Interim Chief Operating Officer and the Interim CFO and the Director of Human Resources.

As Vice Chair, I have participated in the Staff Grievance Committee and Policy and Economic Development Committee meetings.
