

Staff Senate Services and Facilities Committee

Meeting: Wednesday Feb 1, 2023 @ 1pm

Attendance: Mark Woolwine, Dennis Thomas, Carcyle Barrett, William Tuttle, Angela Lewis-Klein, Jennifer Hall.

S&F met Wednesday Feb 1, 2023. We had one issue brought before the committee. Fellow staff senator Megan Johnson with the School of Nursing brought before the committee the issue of cockroaches in her building. Multiple requests have been made to have the issue addressed. Someone (She didn't think it was Black Diamond Pest) visited before our meeting and only looked in the drains and sprayed in one spot. Cockroaches have been observed in multiple areas including staff desks. She mentioned that students have observed the roaches on the walls of the building as well.

We provided her with advise on how to continue pressing the issue. Carcyle also brought the issue up with Jerry Johnson (Dan Durbin's Chief of Staff). He is going to address the issue as well.

No other business was brought before the committee.
