

Staff Senate Grievance Committee

April 11, 2023 Meeting Report

One grievance has been received since the last full Staff Senate meeting regarding a written warning for insubordination. Upon completion of interviews, document review, and discussions among committee members, the hearing committee recommended to the final grievant authority that the written warning be upheld. This committee has not heard back from the final grievant authority regarding their decision.

Additionally, we have had one member of our committee contact me to state they will not be running for their seat once expired, but will remain as an active committee until new senators are seated.

Respectfully submitted,

Theora Hudson
