Committee Business

Staff Morale

We have reached out to Katie Partin regarding surveys which are in the pipeline to be sent out for 2022. Working with Katie and the CODRE committee for their annual report now since the new VP for Diversity Lee Gill has been announced, we expect the campus survey work will move forward after they get here.

We had reached out to Douglas Craddock Jr, the new interim VP for Community Engagement to join us and he did. He talked about getting together with his team and getting back to us later on with possible collaboration opportunities.

Staff Engagement

We got the staff senate cards from John Smith and will work with employee success center regarding the new hire and retirement message and how its written on there and signed.
