

## **The Parking Advisory Committee**

Meeting notes for 3/5/2026.

Christine Williams Foster-committee member

Wende Elkins-committee member

Topics that were discussed at the March 5<sup>th</sup> meeting:

- 2026-2027 New rates for parking permits for both Belknap and HSC – The new rates have already been approved by the controller's office. Staff do not get any say in the new rates, which we also discussed. We were sent a permit fee historical spreadsheet showing rate from FY07-current and the rates have gone up

Accessibility issues reporting/spot a hazard was brought up again on how important is it to call and report any issues/hazards that you see. Scan the QR code on the signs around campus to report.

E-Scooters are increasing around both campuses. If she happen to walk by a scooter that is blocking a walkway please move if possible, so it is out of the way. The are putting in more bike/scooter racks around campus that hopefully will help.

By-Laws were discussed, changes will be made from the discussion from the committee and then will be sent for approval of the changes.

Submitted by,  
Senator Wende Elkins
