Did you know that in today's industrial food system, a meat-centered diet requires 19 times as much land & 13 times as much water as a plant-based diet? Hearty, meatless meals can be found daily at The Ville Grill, SAC Seasons Salad Bar & most campus dining venues, or requested from caterers for your event -- just ask! SAFETY

Tip of the Week

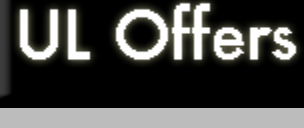

Hazardous road conditions due to ice and snow can cause car accidents. Emergency services will have longer response times due to road conditions. Place an old blanket or two in your car for the rest of the winter. These will come in handy if you become stuck in the snow. Also consider keeping some candy bars or other energy food in your car as well and remember that if you have a cell phone you should always take it with you when traveling by auto.
